

3 Tips to Help Prevent Identity Theft

Identity theft can happen to anyone.

Here are 3 tips to help protect yourself.

1. Don't use public Wi-Fi to access your bank accounts or send personal info.
2. Don't overshare personal details on social media. Identity thieves can use this to guess "security" questions.
3. Add a fraud alert to your credit report. It will protect your credit from unverified access.
